OPEN

- I support public access to election records.
- **I will** meet with constituents, and return your calls!

ACCOUNTABLE

- I support using bond money promptly on the urgent projects for which YOU voted, thus keeping the costs down and completing them on time.
- I will bring back YOUR voice in government by staffing citizen watchdog committees and making intelligent decisions about YOUR community by holding frequent study sessions.

FAIR

- I support smart, science-based choices about development.
- I support growing within - not beyond - our water supply.
- I support choices which are guided by YOUR future needs, rather than by greed.
- **Choices for which your grandchildren, and mine, will thank us!**

Where does your current Supervisor stand?

OPEN?

- Supervisor Bronson blocked public access to election records, causing your taxpayer dollars to be wasted on a year-long legal battle.*

ACCOUNTABLE?

- Delays in spending bond money have raised the costs so that many projects are delayed or never built.*
- During her 12 years in office she has failed to fill many of her appointments to citizen watchdog committees.* As Chair she only held THREE study sessions.* She has muffled your voice in government and allowed County Administration to take the reins.*

FAIR?

- 30% of her campaign funding has come from the growth industry.
- Mega-developer Donald Diamond has raised money for her.

New York Times (page 1, April 22, 2008*) reports:

"Mr. Diamondis candid about his expectations as a fund-raiser. 'I want my money back, for Christ's sake. Do you know how many cocktail parties I have to go to?' And later in the article: "To reciprocate, if you need any zoning in the county, let me know," Mr. Diamond wrote."

- Your current Supervisor has voted "yes" to up-zone over 8000 acres* - often against the recommendation of County Staff and the Planning and Zoning Commission.

YOUR CURRENT SUPERVISOR IS A DEMOCRAT IN NAME ONLY.

Isn't it time for a change?
